

APRIL R. BRAUER

Executive Assistant Business Partner · Chief of Staff

619.520.1361 · aprilbrauer@gmail.com · linkedin.com/in/april-brauer-7832663a · San Diego, CA

PROFILE

Strategic Executive Partner and AI workflow architect with 20+ years supporting VP- and C-suite leaders in complex, fast-moving organizations. Ramps up fast, builds a mental model of how an exec thinks, and operates independently with minimal direction — retaining context, anticipating needs, and closing loops before they open. Built and deployed a full AI-powered executive operating system adopted across the EABP organization and presented at the internal AI Learning Lab. Operates at Chief of Staff depth: making decisions with business context, synthesizing information before anyone asks, and building systems that outlast any single task. Trusted with sensitive information, cross-functional relationships, and the judgment calls that don't come with instructions.

PROFESSIONAL EXPERIENCE

Executive Assistant Business Partner

Jul 2022 – Present

Intuit

Supporting VP of CG Assisted Commercialization (60+ person org) · Previously: VP of Core Tax & Monetization; EVP of Customer Success

- Built and deployed a full AI-powered executive operating system — daily morning briefings pulling live calendar, email, and Slack data; a 1:1 prep generator; automated meeting note summaries with open-item flags; a persistent action item dashboard; and a Monday stakeholder pulse check. Presented the toolkit at the internal EABP AI Learning Lab; adopted org-wide and contributed to the shared prompt library.
- Managed calendar strategy with business-context judgment — not just booking, but de-conflicting based on priorities, protecting high-stakes meetings (CEO Deep Dives, Board sessions, Talent Reviews), proactively flagging out-of-office risks and double-bookings before they surfaced, and making real-time calls when same-day shifts hit.
- Served as operational nerve center for a VP offboarding with zero notice — synchronized 10+ stakeholders, migrated full calendar structures, and resolved HR system updates within 24 hours while simultaneously managing a second VP's calendar and live crises including AV failures during Talent Reviews and last-minute conflicts during exec travel days.
- Operated as the connective layer between the exec and a wide stakeholder network — coordinating across peer EAs, Directors, Finance and Sales leads, and external partners without direct exec involvement in every thread. Built and maintained stakeholder maps, managed communications flow, and ensured nothing sat unaddressed — the same operating model as working through a Chief of Staff.
- Redesigned the leadership team operating rhythm and the Core Tax and Monetization Strategy Review process without being asked — identified structural gaps, built intake templates and purpose frameworks, and stood up a 9-meeting Account Portfolio Review series across Sales and Finance. Launched Employee Listening Panels that translated feedback into five discrete leadership actions within 60 days.
- Stood up an 800+ attendee, multi-site team offsite at Disneyland Resort from scratch — managed 729 RSVPs, \$15K in Coupa procurement, ticket distribution across two offices, individualized accessibility support, and a mid-plan pivot when the original program was scrapped. Resolved 3 on-site emergencies in real time. Post-event survey: 4.81/5.0 satisfaction, 95.9% would recommend.
- Drafted communications for the VP across the full range — team updates, peer and leadership messages, external partner outreach (Mastercard), and employee recognition. Led the 48-hour peak tax season War Room as primary operational lead for ~100 team members.
- Advocated for talent unprompted — lobbied two Directors to hire a high-performing colleague ahead of her interview. Sourced and fully onboarded a new team member including context

documentation, delegate access handoff, and stakeholder introductions. Wrote 19 recognition nominations totaling \$3,700 in Spotlight awards in FY26.

Assistant to Port Auditor (Board Appointee)

Jul 2012 – Jul 2022

Port of San Diego

Sole support to the Port Auditor — appointed directly by the Board of Port Commissioners — with independent access to sensitive financial and operational information across the full Port.

- Managed all scheduling, correspondence, Board materials, and external briefings for a Board-appointed executive across a decade — no other administrative support, no gap in continuity.
- Custodian of confidential audit records and financial documents; maintained strict chain of custody and compliance with public agency records requirements across multiple audit cycles and org transitions.
- Reconciled AP/AR, travel budgets, and procurement; coordinated domestic and international travel including visa processing for the auditor and audit team. Supported departmental moves and IT transitions with zero disruption.

Assistant to General Manager

Jul 2008 – Jul 2012

Navy Exchange, Naval Base San Diego

- Sole administrative support to the GM of a high-volume retail and services operation — primary liaison between the GM's office and department heads, vendors, and base command.
- Managed end-to-end event coordination for the grand openings of three new Navy Exchange stores, including the largest drawing 300+ attendees — secured governmental representatives from city, state, and federal agencies, handling logistics, protocol, and on-site execution.

Executive Assistant to Vice President

Sep 2003 – Jul 2008

Morris Cerullo World Evangelism

- Full EA support for a VP at an international nonprofit — communications, multi-country travel logistics, donor relations, and event coordination across multiple countries.
