PROFILE

Executive Assistant Business Partner with 10+ years supporting C-suite and VP-level leaders in complex, high-velocity environments. I **design operating systems**—calendars, communications, and **AI-powered workflows**—that translate executive priorities into business outcomes. Trusted with strategic context and known for **closing loops before they become problems**.

PROFESSIONAL EXPERIENCE

Executive Assistant Business Partner · Intuit Jul 2022 – Present

Supporting VP of CG Assisted Commercialization (60+ person org). Previously supported VP of Core Tax & Monetization, and EVP of Intuit Customer Success.

- Built a set of AI tools to handle the daily prep work for my exec including morning briefings pulled from live calendar, email, and Slack data; a 1:1 prep generator; meeting note summaries; and an action item dashboard that persists across sessions. Cut hours of manual work per week.
- Architected and managed comprehensive calendar strategies for the VP, ensuring every hour reflected core business objectives; minimized scheduling friction by 15% through the implementation of rigid decision logic and seamless collaboration with peer EABPs.
- Write communications for my exec across the range — team updates, messages to her manager and peers, partner outreach to companies like Mastercard, and employee recognition. She sends them, I write them.
- Orchestrated a large-scale, multi-site team offsite at Disneyland for 800+ attendees; navigated complex logistics including procurement of \$15K in ticketing via Coupa, comprehensive RSVP management, and individualized accessibility support.
- Ran a full merchandise order for the team: gathered 55 responses, sized a 60-unit order with buffer, built the tracker, and coordinated fulfillment.
- Built a color-coded calendar system in Outlook — 10 categories — so the VP and I could see at a glance where her time was actually going. Used it for bi-annual calendar audits that surfaced real patterns and gaps.
- Coordinated a 9-meeting Account Portfolio Review series across sales and finance stakeholders, working with multiple other EAs to get it scheduled.
- Acted as a strategic thought partner by consistently identifying potential risks and operational dependencies; provided guidance on calendar prioritization and delegation to ensure leadership focus remained on high-velocity, high-impact initiatives.
- Directed the critical offboarding process for a high-profile VP (Ray Cao), ensuring zero operational friction; stabilized workflows within 24 hours by synchronizing with 10+ key stakeholders, migrating complex calendar structures, and resolving HR system updates immediately following the notice.
- Directed end-to-end logistics as the primary operational lead for the 48-hour peak tax season War Room; managed complex catering and multi-room coordination for a team of approx. 100 individuals to ensure continuous workspace efficiency.

Assistant to Port Auditor (Board Appointee) · Port of San Diego Jul 2012 – Jul 2022

Sole support to the Port Auditor, a position appointed directly by the Board of Port Commissioners. Independent oversight function with access to sensitive financial and operational information across the full Port.

- Handled all scheduling, correspondence, and logistics for a Board-appointed executive with no other administrative support.
- Custodian of confidential audit records and financial documents; maintained strict chain of custody and compliance with public agency records requirements.
- Coordinated domestic and international travel including visa processing for the auditor and audit team.
- Reconciled AP/AR, travel budgets, and invoicing; reviewed and approved procurement requests.

- Prepared all materials for Board meetings and external briefings. Supported departmental moves and IT transitions.

Assistant to General Manager · [Navy Exchange, Naval Base San Diego](#) *Jul 2008 – Jul 2012*

- Supported the GM of a high-volume retail and services operation on a Naval base — scheduling, correspondence, operational reporting.
- Served as the main point of contact between the GM's office and department heads, vendors, and base command.
- Coordinated logistics for leadership meetings, audits, and operational reviews.

Executive Assistant to Vice President · [Morris Cerullo World Evangelism](#) *Sep 2003 – Jul 2008*

- Full EA support for a VP at a nonprofit with international operations — communications, multi-country travel, donor relations, and event logistics.
- Managed visa processing and international itineraries across multiple countries.
- Wrote internal and external communications on behalf of the VP.

SKILLS & TOOLS

AI Workflow Design & Automation: Developed specialized operating systems for executive support, including automated morning briefings, strategic 1:1 prep generators, and persistent action item dashboards, leveraging Claude, Plaud, and Gemini to eliminate manual friction.

Microsoft 365: Outlook (advanced), Teams, Word, Excel, PowerPoint, SharePoint

Collaboration: Slack, Google Workspace (Docs, Drive, Sheets, Forms)

Finance & Admin: Expense management, budget reconciliation, procurement approval, SAP, Adobe Acrobat

Core Competencies: Executive calendar management, stakeholder communications, confidential records, event planning, process documentation
